- Problem solving and decision making
- Data security and legislation
- Database and campaign management
- Personal effectiveness and personal development

Who is this course for?

This training course is suitable for individuals required to sell a company's technical products and services. They will develop a good knowledge and understanding of the portfolio of technologies that are available. They will work to maintain good relationships with existing clients, gaining repeat business wherever possible from customers both internal and external, UK or internationally. They also approach potential customers with the aim of winning new business.

Entry Requirements

Individual employers will set the selection criteria. Level 2 English and Maths must be achieved, prior to taking the end-point assessment.

Professional Accreditation

This apprenticeship is recognised for entry onto the RiTEch register of IT Technicians.
